[National Association of Energy Service Companies Now on Twitter as @NAESCONews](#)

The National Association of Energy Service Companies (NAESCO) has a new Twitter handle and would like to invite all interested parties to follow us at @NAESCONews.

NAESCO will be sharing information about the association, its members and their projects, NAESCO conferences, workshops and webinars as well as advocacy efforts on Capitol Hill. Our very first tweet was in support of extension of tax provision 179D.

“With this new presence on Twitter, we hope our followers will not only learn more about NAESCO and its policy and market building activities, but also about how our members’ businesses are dramatically improving energy efficiency in facilities nationwide,” said Terry E. Singer, Executive Director of NAESCO.

In addition to our Twitter account, more information about NAESCO can be found at www.naesco.org and on LinkedIn.

###

*The **National Association of Energy Service Companies (NAESCO)** celebrates 32 years of advancing the energy efficiency industry. NAESCO is the leading national trade organization representing and promoting the energy efficiency industry in the energy marketplace, the media, and the government both at the state and federal level. NAESCO's active membership consists of key energy efficiency industry leaders representing ESCOs, energy efficiency and energy equipment manufacturers, suppliers, and subcontractors. NAESCO also welcomes as members, engineers, consultants, financial/legal/insurance providers, government agencies, and thought leaders from the energy NGO and academic communities.*

***Energy Service Companies** contract with private and public sector energy users to provide cost-effective energy efficiency retrofits across a wide spectrum of client facilities, from college campuses to water treatment plants. Effectively utilizing a performance-based contract business model, ESCOs have implemented significant comprehensive energy efficiency retrofit projects over the last three decades.*
