Registration Open for the NAESCO 30th Annual Conference & Vendor Showcase, November 12-14, 2013, Orlando Hilton, Orlando, FL

The National Association of Energy Service Companies (NAESCO) is pleased to announce that registration is now open for NAESCO's 30th Annual Conference & Vendor Showcase in Orlando, FL in November, ***Charting the Future Course of Energy Efficiency***.

Terry E. Singer, Executive Director of NAESCO said "We are pleased to host the 30th Annual Conference & Vendor Showcase in Orlando this year and celebrate three decades of industry accomplishments. The NAESCO Annual Conference will be the perfect blend of content and networking opportunities for our attendees and exhibitors. We have a comprehensive and diverse group of speakers and presenters, who will provide insight on the challenges and opportunities to be seized as we contemplate the future course of energy efficiency. As always, our exhibitors will share with conference attendees the latest advances in technology and innovation from the leading companies in the energy efficiency market."

Annual Conference attendees are leading providers in the energy efficiency marketplace, existing and potential customers, policy makers, and energy efficiency thought leaders in the academic and NGO communities. Exhibitors represent companies that are active manufacturers/distributors/ suppliers/sub-contractors of a broad range of goods and services to energy service companies and their end-user clients in both the public and private sectors.

ABOUT NAESCO

The National Association of Energy Service Companies is a national trade association promoting the benefits of the widespread use of energy efficiency for more than 25 years. NAESCO's current membership of about 80 organizations includes firms involved in the design, manufacture, financing and installation of energy efficiency and renewable energy equipment and the provision of energy efficiency and renewable energy services in the private and public sectors. NAESCO members will deliver about \$6 billion of energy efficiency, renewable energy and distributed generation projects this year.
